

January 2021

St. Andrew's Place Assisted Living

When 2020 began, you could see a whirlwind of excitement for a new decade. Of course, no one knew that it would bring a global pandemic filled with challenges and sacrifices. Challenges of social isolation, cabin fever, and mental and physical decline of residents and staff. Most importantly, the sacrifices of not being able to hug, see loved ones or friends, and interactions with others. Including not being able to come downstairs or walk through our double doors to hear laughter and see everyone participating in activities, whether it be exercising, bingo, crafts, or light saber volleyball.

In spite of all the challenges and sacrifices we can truly say that St. Andrews Place has become a close knit family. We have conquered this pandemic and continue to defeat every obstacle it throws at us. Even cutting down to individualized activities, going for walks outside, singing in the halls, and pick-me-ups. Most importantly we ended 2020 with excitement due to receiving our first dose of the Pfizer vaccine on December 29, 2020. We are scheduled to receive the second dose on January 19, 2021. We still have no idea when our restrictions might be loosened but this gives us hope we are moving in the right direction. We are hopeful that 2021 will bring laughter, full activity calendars, and the welcoming of family and friends.

This Past Month

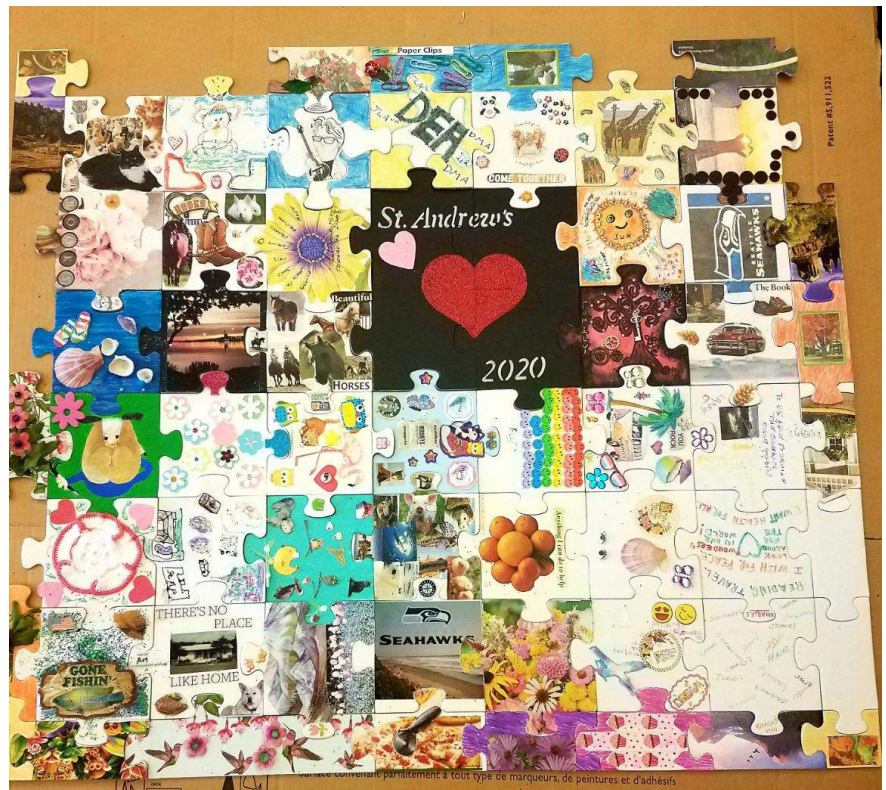

At St. Andrew's we do our best to make sure we can provide many unique and fun activities for our residents to enjoy. From arts & crafts, to bingo, to a community jigsaw puzzle, and every little bit in-between. The health and happiness of the residents is our goal.

Each Piece is Special.
Each Piece is Important.
Each Piece is Needed.

One of the fabulous group crafts projects we did, with each person creating their own puzzle piece describing themselves as a whole.

The result is this amazing Jigsaw Mural, representing all the different individuals that make up our fabulous St. Andrew's Family.

Hmmmm, and rumor has it, our vacant Activities Director position may be getting filled by a familiar face.....stay tuned...
